Managing the trees to rear of houses on Gillies Hill

The Cambusbarron Community Development Trust (CCDT) are currently leasing the woods to the rear of the even numbered houses on Gillies Hill. We are aware that some of these trees are very large and may cause damage if they are blown or fall over. For this reason the CCDT intend to start to manage the woodland to the rear of the houses and consider the removal of a number trees. We intend to apply for grant funding to do this so if successful there will be no cost to residents. The project to remove the trees will include a number of stages including:

- Planning and obtaining permission to remove identified trees.
- Waiting until the right time to carry out the work to minimise the impact on nesting birds, bats and other wildlife (probably later in the summer).
- Applying for funding to carry out the work.

A map of the area concerned is on the other side of this notice for your information.

There are several ways in which you can express your views:

- ⇒ Write your comments in the space and return the bottom of this paper to the Library or 58 Gillies Hill.
- ⇒ Come and meet with us at one of our meetings as advertised on our web site.
- ⇒ Send an email response to info@ccdt.org.uk

We will post any updates on the consultation on our web site at www.ccdt.org.uk
